

TITLE: Maintenance Project Manager
ONET: 13-1082
LOCATION: 9022 Vincik Ehlert Road, Beasley, TX 77417

DESCRIPTION:

RDT Inc has the following Plan and design electrical and automation projects for the production equipment. Coordinate the installation of new equipment and provide troubleshooting support. Essential functions include electrical and automation design services, modification, and understanding of drawings related to electrical, hydraulic, and pneumatic equipment. Oversee production efforts to ensure that projects are completed satisfactorily, on time, and within budget. Design and develop procedures for testing products. Create sketches or drawings as a follow up to data collection. Perform reverse electrical engineering. Develop maintenance and testing procedures for electronic components and equipment. Inspect electronic equipment, instruments, and systems to make sure they meet safety standards and applicable regulations. Ensure compliance with company regulations and policies. Supervise maintenance professionals and engineers.

REQUIREMENTS:

Bachelor's degree or foreign equivalent in Mechanical Engineering or a closely related field followed by 5 years of progressively responsible years of experience in project engineering. Must have 5 years of experience in the following:

1. Project management, including automation and electrical projects.
2. Commissioning electrical and automation projects.
3. Working with PLCs, HMIs, and motor control.
4. PLC Program Software such as RSlogix500, RSlogix5000, Controllogix5000, or Factory Talk.
5. Developing and reviewing detail electrical engineering drawings.

SALARY: \$120,536 per year (at least).
HOURS: 40 hours per week, 8:30 am to 5:30 pm. (Mon-Fri).

Any applicant who is interested in this position may apply by sending resume to Angel Caban, Chief People Officer at humanresources@rdt-usa.com and reference "Maintenance Project Manager"
